

UNDER THE HIGH PATRONAGE OF HIS EXCELLENCY
GENERAL MICHEL AOUN
PRESIDENT OF THE LEBANESE REPUBLIC

25 - 27 SEPTEMBER 2019
LE ROYAL HOTEL - DBAYEH

10th EDITION

SHOW SUMMARY

The 10th edition of the International Beirut Energy Forum welcomed 1890 participants from 31 countries in a very special event held under the High Patronage of HE. General Michel Aoun President of the Lebanese Republic. The synergy that the International Beirut Energy Forum has gained throughout the years, has made this event a landmark in Lebanon for the sustainable energy sector, a lighthouse for development, dialogue, hope, and progress.

We would like to take this opportunity to thank all involved in the forum, particularly H.E. Mrs. Nada Boustani Khoury - Minister of Energy & Water in Lebanon and the honor guest H.E. Mrs. Hala Adel Zawati - Minister of Energy & Mineral Resources in Jordan, as well the officials, our supporters, partners, sponsors, exhibitors, speakers, delegates and others, without whom the show would not have been possible.

Organized by MCE Group and in strategic partnership with the Lebanese Center for Energy Conservation, The IBEF 2019 witnessed a growth in all areas compared to all nine previous editions. This is due to the fact that whether through national partnerships and initiatives, or through regional cooperation and international collaboration, Lebanon is contributing to the positive momentum of sustainable energy.

The stimulating business-focused atmosphere was clearly felt by all during the three-day event and the two-day pre event with the announcement of several bids in the renewable energy sector making the International Beirut Energy Forum 2019 the most successful edition thus far for exhibitors and delegates alike.

The 10th edition of the congress presented 10 big side events and 22 conference sessions in one event for Lebanese, regional and international organizations.

The 2019 edition of the International Beirut Energy Forum will continue its legacy as the leading event in the region related to renewable energy and energy efficiency offering a national and regional platform for individuals, engineers, bankers, decision makers, corporations, universities, and even states and governments to share experiences, to develop right policies and reliable technical solutions for the bright future of our planet.

This post-show report summarizes the 2019 event and demonstrates how the show has grown and outlines the strategies used to deliver and expand the event for the future. If you are already involved with the International Beirut Energy Forum as an exhibitor, visitor or delegate, we would like to thank you for your continued support in making it such a great success.
